MEMORANDUM FOR THE RECORD

SUBJECT: Legislation Involving Commo Reciprocity

REFERENCE: OUT 59317

50X1

1. Talked to [redacted] Deputy Director, Office of Communications, concerning the status of proposed legislation mentioned in OUT 59317, dated 18 October 1961.

50X1

[redacted] stated it was his impression rather than his information that the Department of State is making a pitch for Commo reciprocity legislation and has been told to submit their proposal to the Bureau of the Budget. Indications are that the FBI will not oppose the Department proposal. On the other hand, they will not support it. This position is quite a disappointment to the Department. It is assumed that if Mr. Hoover is asked about this legislation, he will take his personal, traditional position.

50X1

2. [redacted] is having his people check the exact status of the proposal and will advise.
